# We gain knowledge . . .

Knowledge is the fruit of learning, the source of understanding. We seek it from the time we are able to talk. As individuals in today's complex society, we realize our extreme need for it; we hope our life here has developed within us the effort to seek and discover knowledge of all things about us, that we may have a finer future.

Always reaching out for something new--French!

Oh, to understand the mysteries of life--Biology!

Typing! A skill that takes much practice.

Exploring the new concepts of advanced mathematics.

Exploring the world through our American writers.

Putting education to its most practical use.

Cooking and sewing—only a part of home economics training.

Our great American heritage—out-growth of history.

The bell has tolled—and now to work!

What a handsome lot of initiates!

Little ones, big ones, middle-sized ones; cars come in all sizes.

Food, fun, and frolic at our favorite time of day.

A last-minute adjustment before the game begins.

# AUTOGRAPHS

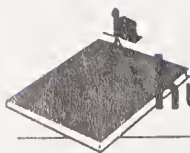

Andy,

I can't think of words to write to tell you how much I've enjoyed being your friend. If all boys in school were like you, I wouldn't mind coming at all. It has been a pleasure being a fellow bus driver with you. You are indeed one of the nicest and sweetest boys around. May you have all the luck in the world as you journey into life.

P.S. Watch those gears  
on the 40.

A friend always,  
Brenda Faye
